PRESS RELEASE
February 5, 2010

Veradia Welcomes Dr. Plorde

FOR IMMEDIATE RELEASE

Veradia Interventional Radiology and Vein Center would like to welcome Dr. J. Joshua Plorde to its practice. Veradia specializes solely in treating varicose and spider veins through minimally invasive treatments that allow patients to experience little pain, minimal down time and a successful recovery. Dr. Plorde is an Interventional Radiologist, specializing in vascular and non-vascular image guided interventional procedures and he is an expert in many different types of venous disorders.

He earned his medical degree at the University of Washington, Seattle, WA and completed his residency in Diagnostic Radiology at Virginia Mason Medical Center, Seattle, WA. Dr. Plorde completed fellowship training in Vascular and Interventional Radiology at the Mayo Clinic, Rochester, MN.

Before moving to Sioux Falls, Dr. Plorde and his wife, Dr. Desiree Langel (a dermatopathologist) practiced in their respective specialties in the Twin Cities for ten years. Outside of work, Dr. Plorde and his wife are busy raising their twin boys, James and Joseph.
