

Another “Feel Good” Story.

Varicose veins went from painful to pain-free overnight.

Patti Witt’s varicose veins were causing pain in her legs and knees during the night. The complications were causing her to lose sleep and she wanted relief.

“When I heard Veradia Interventional Radiology and Vein Center offered laser surgery, it sounded like a great option. I experienced no pain during the procedure. In fact, I watched the whole thing! Today, my pain is totally gone and so are my varicose veins.”

Put your varicose veins to bed.

If you are experiencing pain or discomfort caused by varicose veins, let Veradia Interventional Radiology and Vein Center take care of the problem during a simple outpatient laser procedure. Call 605-338-9740 today. Many procedures are covered by insurance, and we now offer Care Credit (a payment option for our patients) as well!

Patti Witt, Happy Veradia Client
