

*Treating your varicose veins right now*  
**just might give you a healthier leg to stand on.**

**The troubling signs are already there.** If you suffer from varicose veins, tired and achy legs that sometimes swell are probably something you've noticed. By the end of the day, you even might have difficulty standing because of the discomfort. If your best efforts at dealing with the problem are not working, we suggest you give us a call. At Veradia Interventional Radiology and Vein Center, our medically advanced laser procedure can eliminate varicose veins without surgery. You'll experience minimal discomfort and no downtime. Results are immediate and last forever in 97% of cases.

Taking care of your varicose veins today can mean many more years of active, comfortable activity. For more information, call us at **338-9740** and schedule a private consultation with Dr. Matthew Casey.

Veradia™ is a division of  Medical  
X-Ray Center, Inc.
